

HISPASAT is present for one further year at the CABSAT 2013 trade fair in Dubai

- **HISPASAT brings the most innovative satellite communications solutions to the leading trade fair of the Asian continent.**

Madrid, March 12, 2013. - HISPASAT, the Spanish communications satellite operator, will be present for one further year at the CABSAT 2013 trade fair that is inaugurated today, presenting the latest new developments in its advanced telecommunications services offer. At its stand (D4-23), located inside the Spain Pavilion, HISPASAT presents new high-quality communications services and innovative solutions for contents distribution in the region.

At this trade fair, which is held in Dubai from March 12 to 14, and that is considered to be the most important one in the sector of this region, over 20,000 professionals will be able to find out about the latest contributions from the HISPASAT Group in fields such as high-speed Internet access and the development of mobile networks in the region. The powerful fleet of satellites of the HISPASAT Group offers a wide variety of services to its clients, amongst which we can highlight the distribution of television and radio contents, video streaming, broadband services in land and sea environments, videoconferences and corporate networks.

About HISPASAT

The HISPASAT Group comprises companies with a presence in both Spain and in Latin America, where the Brazilian firm HISPAMAR operates the Amazonas fleet of satellites. The Group is a leader in the dissemination and distribution of contents in Spanish and Portuguese, including the transmission of important Direct To Home Television (DTH) and High Definition Television (HDTV) digital platforms, and it is one of the main global companies in terms of income in its sector and the principal communications port between Europe and America.
